

STRATEGY PLAN

2020–2022

The activity of the association that took place along the 30 years of its existence , the results obtained, the fulfilment of the purpose for which it was created encourage us to program a plan of development for another 3 year to come, 2020-2022.

The hired staff and the consecrated volunteers, true leaders in the activities organised so far, offer the certainty of success through a professional approach in offering useful and complex services to people with disabilities around us.

We continue the work for our headquarers in order to create suitable conditions in order to raise the quality of the services offered and also to further train our executive staff and volunteers.

We diversify the services offered to people in need, especially to those with disabilities through our collaboration with governmental institutions for people with disabilities and through partnerships with NGOs with this specific, in order to improve the quality of our services and in order to cover in the community we are living, the needs of our fellows, according to the principle “united we will win”.

We are continually searching for humanitarian associations in other countries with experience and knowledge in this ministry in order to learn from them and also to obtain a financial support, these aspects being absolutely necessary.

We are trying to raise the interest of local Christian communities to sustain humanitarian activities, where we can find a spring of love and care for our fellows that can be directed towards people with disabilities.

MEASURES TO IMPROVE THE HEADQUARTERS OF THE SSOCIATION CARITATEA

IN THE PERIOD OF 2020-2022
